Planets give different *phalas* (results) in each of the 27 *nakshatras* (lunar mansions). This *phala* relates to the quarter (*charana*) of a *nakshatra* in which a planet is placed and the *drishti* (aspect) of other planets that it receives. The beauty of *Ravana Samhita* is that a planet in one *pada* might give problematical results, whereas in the next *pada* of the same *nakshatra* it can give fortunate results. This difference is subtly highlighted. Here follows the fourth in this series of translations of *Ravana Samhita*, relating to the fourth asterism *Rohini*, which stretches from 40 to 53 degrees/20 minutes of the natural zodiac.

## Rohini Nakshatra

### First Pada

- ❖ When the Sun is placed in the first *pada*, the native will be stylish and well-groomed. He will earn a living through raising and selling livestock (elephants, horses, sheep, nanny-goats, and so forth). He will be service-oriented by nature. He may suffer from sexually-related or transmitted diseases.

**Publisher's Note:** We have in our possession only two charts of individuals with sexually transmitted diseases, and these include the Sun in the second *pada* of *Rohini*, not in the first *pada* as mentioned in the above verse. It has been difficult to check the reliability of this verse without having access to a larger database.

### Second Pada

- ❖ When the Sun is placed in the second quarter of *Rohini*, the native will be for the most part content and powerful. He can earn a living through a business related to liquid items, oil, and ghee (clarified butter). He may experience restlessness or nervous collapse related to Pitta *dosha* imbalance, meningitis, or simple headaches. He will fear swimming in deep or unfamiliar waters. ### Second Pada

Females with this placement will have a large number of fine clothes and jewellery, and may possibly employ servants and own luxury vehicles. The female native may also suffer from menstrual disorders, pain in the limbs, and headaches (*shiroshul*).

**Publisher's Note:** We have in our possession the chart of a female native born January 3, 1977, time 0:30:00, in Sholapur, India (75 E 55' 00", 17 N 41' 00"). The Moon is in *Rohini* in the third *pada*, not in the fourth *pada* as the text says above. Until May 2007, she worked for one of the biggest diamond houses in Mumbai, but has now left her job and is unemployed.

This is the chart of American actress Loni Anderson, having Mars in the second *pada* of *Rohini*. She was married to actor Burt Reynolds. After six years of marriage, they entered a bitter divorce battle in January 1994. Anderson claimed a dozen years of abuse at the hands of Reynolds as his lover, and, later, his wife. Reynolds, in turn, flaunted his extramarital affair and accused Anderson of being a terrible mother.

### Fourth Pada

- ❖ Mars in the fourth *pada* indicates an unstable though wealthy native who associates with people of low social or moral character, and who spends money on liquor and beautiful women. If the native works in government service, he will earn money through unethical means. He may be a smuggler and will deal in drugs.

**Publisher's Note:**

The following chart is that of Louis Ferrante, former mafia insider and prison inmate, whose birth data was presented to us by Ferrante himself. As a teenager, he was a gang leader and later worked for the Gambino crime family. He eventually spent eight and a half years in various maximum security prisons after refusing to cooperate in a federal case against former Gambino associates. During his incarceration, he educated himself and turned his life around, becoming a writer as well as an Orthodox Jew. His chart shows us another way of looking at the above verse.

As per the text, Mars in the 4<sup>th</sup> *pada* of *Rohini* reveals a smuggler or one who gains income through unethical means. However, here we have Mercury in the 3<sup>rd</sup> *pada* of *Rohini* but with a direct aspect of Mars on Mercury and also on Mercury's sign Gemini. Incidentally, the text at the beginning section for Mars in *Rohini* mentions, "Mercury's aspect makes one scholarly and religious. He may have a spectacular personality but will be ill-tempered by nature." The native did become a scholar and studied comparative religions in prison, but he was also a smuggler. One may read further on about the results of Mercury in the third *phala*, which relates to Louis Ferrante's biography and chart.

**Mercury in Rohini**

- ❖ If Mercury receives the Sun's *dristhi*, the individual will be poor, and will have a vulnerability about him, but will also enjoy helping others.
- ❖ When Mercury has an aspect of the Moon, the native will work hard and be wealthy. He may receive income from the government.

- ❖ Mars' aspect signifies one who receives money from wealthy benefactors, though he will have to face inauspicious *phalas* in the *dasha* and *antardashas* of Saturn.
- ❖ Jupiter's *dristhi* indicates an affluent and scholarly native who becomes a civic leader.
- ❖ The aspect of Venus reveals one who is well-dressed but has a tendency to show-off. He may seek undue attention from the opposite sex.
- ❖ Saturn's aspect reflects an individual with psychological problems, who may face humiliation at the hands of family as well as outsiders. Even his wife will disrespect him.

**Publisher's Note:**

The third stanza above indicates that Mercury in *Rohini* aspected by Mars receives income from wealthy benefactors, though he will also have to face difficult results in Saturn periods. The following examples illustrate this principle:

**Mark Erick Johnson:**

**T**his American thief received a ten-year prison sentence for burglary. Mercury and Mars are both in *Rohini*, thereby forming *sambhanda*, a complete connection that occurs via a conjunction, mutual exchange, or aspect. Per *Ravana Samhita*, the native's Saturn periods should be difficult. On February 16, 1991, he entered prison for 10 years while he was running Saturn/Saturn *dasha*.

On 11/30/2001, in Detroit, this American actress pleaded guilty to a charge of cocaine possession. A charge of driving while impaired followed in an incident on 9/12/2001 in Romulus, MI. She was sentenced to two years probation and mandatory drug screenings.

One may note what was written earlier in Louis Ferrante's case about drugs and *Rohini*. Here again, Mercury is in *Rohini* and Mars aspects it, so during Saturn periods one needs to be careful, as per *Ravana Samhita*. On September 12, 2001, when the incident occurred, Bleeth was running the unpredictable Jupiter-Venus *dasha*, and Venus is closely conjoined Saturn. Venus being a benefic will absorb Saturn's malfeasance, and Venus *antardasha* gave the results of Saturn. One must also note that Venus-Saturn in conjunction, especially in an enemy sign, can give scandals. In this case, the Venus-Saturn conjunction aspects the third house (transportation and driving). Mars (the highlighted planet for this discussion), as per the above verse in *Ravana Samhita*, is in the fourth house of vehicles, and she was caught driving a vehicle while impaired.

### Carlota, Empress of Mexico

The daughter of King Leopold I, a member of Belgian royalty, married Archduke Maximilian of Austria at age 17. Ambitious and restless, she was delighted when her husband was offered the throne of Mexico on 5/28/1864. As the Empress of Mexico, she worked enthusiastically on behalf of Mexican affairs in spite of various political and social obstacles. Returning to Europe to seek aid, Carlotta had a total breakdown, going mad on 10/07/1866. Kept in seclusion, she never knew that Maximilian was executed in 1868. She died on 1/19/1927 at 7:00 AM in the castle of Boechout at Neise, near Brussels.

Note that both Mars and Mercury are in *Rohini*, thereby forming a relationship as per *Ravana Samhita*. She became mad on October 7, 1866, when Mars/Moon *dasha* was operative; Mars *mahadasha* wreaked havoc in her life. The text speaks about the aspect of Mars on Mercury; here Saturn aspects the *mahadasha* lord Mars (conjunct Mercury) and the Moon, *antardasha* lord.

### First Pada

❖ Mercury placed in the first *pada* of *Rohini* indicates an intelligent and sweet-spoken native who earns through writing and philanthropic works. He will have a brilliant and modest wife. He will become excited when speaking, which will create difficulties in his speech.

Raffaella Carrà (also known as la Carrà or Raffaella) is an Italian singer, dancer, TV hostess, author, and actress, who has appeared in over 20 films. One can note as per *Ravana Samhita* that her chart has Mercury in the first *pada* of *Rohini* conjunct Saturn, fifth lord of authorship conjunct the tenth *arudha pada* of career.

Though we have over 126 authors in our database with Mercury in *Rohini* (all *padas*), here we examine a controversial chart of a native who, when contacted, refuses to give her birth data for personal reasons. This chart has therefore been debated quite frequently.

Certain British websites have quoted a birth time of 2 pm, which places *Rohini* *nakshatra* in the eighth house with Rahu. The lord of *Rohini* is the Moon and thus, *Rohini* is the favoured asterism of the Moon god Chandra. The Moon relates to creativity, and Rahu signifies spirits and wizards and is conjunct the third lord of writing, Jupiter, who is the *naisargika* lord of publishing. The author's *Harry Potter* series relates directly to occult eighth house themes. Rahu *dasha* ran from 1988 to 2006, during which time Rowling became one of the wealthiest women in the world, due to her Rahu-*Rohini* creative surge. Though here, Mercury is not posited in *Rohini*, we still see the creative potential of this *nakshatra*.

This chart belongs to gentleman who is a gold dealer and jeweller by profession. Two verses from above are applicable a) Saturn in *Rohini* aspected by Mars indicates one who is loquacious, and b) Saturn in *Rohini* aspected by Venus indicates one who earns money through the trading of gold and silver, such as in the jewellery business. Venus does not directly aspect Saturn, but there is *sambhanda* of Saturn and Venus by mutual exchange and trinal aspect, as per *Sage Parasara*. Saturn's aspect from Mars fits this native well, as he is quite charming and appreciated by people from many different segments of society. For example, he enjoys meeting and spending time with *sanyasis* from all over India. His appeal is very attractive and charismatic to all sorts of people.

**First Pada**

- ❖ Saturn in the first *pada* of *Rohini* indicates one who may be religious, though also fond of gambling. Such a native spends and loses a great deal of money in his youth, but becomes more settled, peaceful, and less of a squanderer after the age of 45. He may suffer from

TB (tuberculosis) and may lose teeth prematurely if he does not have good dental hygiene.

### Fourth Pada

- ❖ Saturn in the fourth *pada* reveals one who is a fashionable dresser. He earns a living in the livestock business, though he may not be an expert at his field. Due to his superior financial position, he enters into politics and reaches a position of power almost immediately. He becomes a minister after the age of 50, but the second half of life becomes miserable due to health problems. He may suffer from disorders of the eyes and throat, or be afflicted with gastro-intestinal disease.

## Rahu in Rohini

### First Pada

- ❖ Rahu's presence in the first *pada* of *Rohini* reveals a bold native. He will be slender, even though he eats heartily. *He will suffer from chronic indigestion and may have weak eyes, but will live a long life.* If the Ascendant is also in this *pada*, then Rahu protects him at each step in life.

**Publishers Comment:** It is noteworthy that the Rahu in the Ascendant in the fourth *pada* of *Rohini* is herein considered to be auspicious, as many astrologers have deemed Rahu in the Ascendant to be an unfortunate placement.

### Second Pada

- ❖ Rahu in the second *pada* of *Rohini* indicates a strong-willed native who earns success and fame in business. Such a native will be have a tolerant and confident nature. Due to his heavy eating habits, he may suffer from gastro-intestinal disorders. *He may have weak eyesight, as well.*

- ❖ One with Rahu in the fourth quarter of *Rohini* may love literature and may be an author. He could earn a living through any intellectual pursuit, but even without a great education or intellect, he may become known as a scholar. He works very hard and receives results late in life.

**Translator Rushikesh Deshpande Comments:** I have Rahu in the 4<sup>th</sup> *pada* of *Rohini* ☺ in the sixth house of disease and digestion (not exactly in the 2<sup>nd</sup> *pada*, as given in the text). Nonetheless, I have a weak digestive system and used to suffer from indigestion very frequently, as noted in the text above. I appreciate food a great deal and eat a great deal, as well. My habit is to eat extra-spicy food. So, the description given in the first 2 *padas* is partially applicable on me. In addition, I have to wear spectacles for weak eyesight. My left eye is especially weak. Salutations to Ravana!

## Ketu in Rohini

### First Pada

- ❖ Ketu in the first *pada* of *Rohini* signifies a native who earns his livelihood far away from his birthplace. Much of the time, he will also depend on others to give him food. He will only live 65 years. He may be dumb or blind.

### Second Pada

- ❖ The native will have a short lifespan if Ketu is placed in second *pada* of *Rohini*. If Jupiter has an aspect on Meena (Pisces) or the Moon, the native will not live beyond 20-25 years. His body and eyesight will be weak from childhood. Such a native may be handicapped or a leper.

### Third Pada

- ❖ Ketu's placement in the third *pada* indicates one who is a professor, monk, or priest. The native will have a large family and spend a happy life up to age 30. After this age, his struggles begin, as he will face difficulties in marriage as well as an incurable disease.

### Fourth Pada

- ❖ Ketu occupying the fourth *pada* indicates one who is a philosopher of science and master of Vedic shastras. He may be inclined toward occult studies, including *Mantra Shastra*. He may be well versed in Ayurveda or traditional medical therapies. He may experience defects like stammering, dumbness, or blindness.

### Publisher's Note:

*Ravana Samhita* has thus linked all *padas* of Ketu in *Rohini* with health issues and/or vision disturbances, including blindness.

American artist of the Impressionist school, Cassatt (pronounced ca-SAHT) often created images of the social and private lives of women, with particular emphasis on the intimate bonds between mothers and children. An invalid in her later years, **she was almost blind after 1910**. She died on 6/14/1926 in Le Mesnil-Theribus, France. Note that Ketu is in the fourth *pada* of Rohini.

Similarly, the author James Joyce<sup>2</sup> suffered from poor eyesight all of his life. He wrote in large script and still had difficulty reading his own writing. By 1930, he had undergone almost 25 ophthalmic operations. Born February 2, 1882, at 6.24 am in Dublin, Ireland, Joyce's chart shows a 13-degree Sagittarius Ascendant with Ketu in the second *pada* of Rohini

Certainly, one or two case studies do not prove anything. Researchers in astrology should collect more data and test it vigorously for a reliable dictum to emerge. The intention of this article is not to prove dictums but to translate *Ravana Samhita* for English reading audiences, demonstrating its accuracy with a few examples. We hope that this work stimulates further interest and research into the *nakshatra padas*.

<sup>2</sup> James Joyce was an Irish writer, novelist and polylingual wordsmith, an intellectual literary genius who developed an original style and revolutionized the plot and character of fiction.
