Preface

As the term *samhita* connotes 'compilation', it cannot be expected to be an original work. Its business is to condense many *Shastras*. It, therefore, includes details of many subjects found in varied works. The *samhita* in astrological parlance is nothing but an encyclopaedia of astrological and other aspects of human interest. It is also mundane astrology with many scientific topics and other subjects in which human beings have an abiding faith, Hence, the *samhita* can rightly be termed a work of social science, for social science has reference to and explanation of almost all the aspects of social life and those that have a human appeal.

Varamihira expresses his indebtedness to ancient sages like Kapila, Garga, Kasyapa, Atri, Bhrigu etc; for according to him, a country that does not possess a good astrologer is damned. A good astrologer must be an all-rounder. Though there is no dearth of books available on predictive astrology in this world, which are grand in their own way, most of them are neither easy to the satisfaction of general public nor comprehensive enough to satisfy the experts. So keeping this in view, *Bhrigu Samhita* has been invoked. The primary view of this book is that because the mystery of whole human life is hidden in the nine planets of a horoscope, it will not be possible to discover the events of the whole life of the native till the effects of every planet is not clearly known without which the complicated science of astrology cannot be simplified. It is with this foundation that every ascendant is described in the book.

The book gives very valuable hints on how to find out the character of a native, his moral inclination, and his fortunes and misfortunes in various walks of life. It also provides useful information with regard to longevity and prosperity of the native, his parents, brothers

and children. This will enable any amateur or professional astrologer to predict with accuracy the future of the native and to form an opinion as to how a planet is disposed in a particular nativity.

In the course of writing this book, several publications were referred to and I have endeavoured to present in this book the essential principles culled **out** from various standard and published works.

The author is highly grateful to Pustak Mahal, New Delhi, who showed their keen interest in publishing this book.

Introduction

Sage Bhrigu — The Father of Hindu Astrology

Astrology is a *Vedanga*, that is, one of the limbs of the Vedas. Vedas were studied by the ancient sages and *rishis*, out of whom *Saptarishis* were the most famous. Bhrigu was one of the *Saptarishis*. He is Manasaputra (wish-born-son) of Lord Brahma, who simply wished him into existence, to assist the processes of creation. He was married to Khyati, the daughter of Daksha. He had two sons from her — Dhata and Vidhata. Goddess **Laxmi**, the consort of Vishnu, is considered to be his daughter. He had one more son, Shukra, who was better known than Bhrigu himself. The sage Chyavana was also believed to be his son.

The Bhrigus, also known as Bhargavas, were a clan of sages descending from the ancient fire-priest Bhrigu. They instituted the ritual of offering the juice of the Soma plant to the old duties. Some of them were also warriors in addition to being priests. The Bhrigus are intimately linked with the composition of *Atharva Veda*.

Bhrigu Samhita

Bhrigu is credited as the father of Hindu astrology, and the first astrological treatise *Bhrigu Samhita* is attributed to his authorship. This treatise is said to contain over 5 million horoscopes, in which he wrote down the fate of every being in the Universe. According to the popular tradition, only about a hundredth of these horoscopes have survived to this age.

The *Bhrigu Samhita* is an astrological classic written by Maharshi Bhrigu during the **Vedic** period, although the available evidence

suggests that it was compiled over a period of time by the various students of Bhrigu. It is a confirmed fact that Saint Bhrigu was the first compiler of predictive astrology, which came to be known as the Fifth Veda of *Treta Yug*, which is an ancient age marking the beginning of the Hindu Culture. He compiled about 5 lakhs horoscopes with the help of Lord Ganesha and recorded details and events of the persons along with their ages. This formed the database for further research and study. The study culminated in the birth of the science (*Shastra*) of determining the quality of time (*Hora*), known as the *Brihat Prasara Hora Shastra*. These horoscopes were based upon the planetary positions of the Sun, the Moon, Mercury, Venus, Mars, Jupiter, Saturn, Dragon's Head (Rahu) and Dragon's Tail (Ketu). After that, Maharshi Bhrigu gave his predictions on different types of horoscopes compiled by him with the help of Lord Ganesha in a brief and concise manner.

During the foreign invasions in India, Brahmin community was dispersed all over India. The invaders also captured these prime assets of Brahmins. For them, it was a miraculous form of telling the fortune of a person and so some parts of the *Bhrigu Samhita* were taken away by them to the foreign countries. The most unfortunate and destructive happening was the destruction of Nalanda University library. It is really unfortunate that some people having a cheap and fraudulent form of *Bhrigu Samhita* claim to have the original *Shastra* in their possession.

If an original *Bhrigu Samhita's* leaf containing the horoscope of an individual is obtained, we will find that it not only reveals the consulting day, time and date of the individual, but also the remedial measures. Some thousands of leaflet horoscopes from the original *Bhrigu Samhita* are believed to be available with one pundit in Hoshiyarpur, in Punjab. It is also very unfortunate that dozens of pundits in India claim to have the original *Bhrigu Samhita* with them.

Uniqueness of Bhrigu Samhita

Many of the books available on predictive astrology are neither easy enough to be understood by the general public nor fully satisfactory for the pundits. Therefore the primary view kept in this book is that because the mystery of the whole human life is hidden in the nine planets of a horoscope, it will not be possible to discuss the events of the whole life of the native till the effects of every planet is not clearly known. Without it, the complicated science of astrology cannot be simplified. It is with this understanding in the book that every ascendant has been treated with the placement of the planets in each of the 12 houses in a zodiacal diagram.

Ist House: (Ascendant) Physique, will-power, fame, figure and physical complex

Important Observation

Sometimes the ascendant is calculated wrongly due to the mistake of an hour or so in the birth time. But the same can be corrected in the given manner, though the mistake might have occurred due to wrong watches or wrong calculations by the ones casting the horoscope or due to the carelessness of parents to remember the exact time of birth.

Take for example, if a person's *lagna* is Aquarius and the results are not tallying, you must correct the *lagna* as Capricorn and study the case. Also cast it as Pisces and study the results. The one that gives correct predictions should be taken as correct. So by permutations and combinations, you can get the correct *lagna*.

Points to be borne in mind while casting the *lagna*

1. Aries *lagna* will be examined with the help of Pisces and Taurus.
2. Taurus *lagna* will be examined with the help of Aries and Gemini.
3. Gemini *lagna* will be examined with the help of Taurus and Cancer.
4. Cancer *lagna* will be examined with the help of Gemini and Leo.
5. Leo *lagna* will be examined by the help of Cancer and Virgo.

6. Virgo *lagna* will be examined with the help of Leo and Libra.
7. Libra *lagna* will be examined with the help of Virgo and Scorpio.
8. Scorpio *lagna* will be examined with the help of Libra and Sagittarius.
9. Sagittarius *lagna* will be examined with the help of Scorpio and Capricorn.
10. Capricorn *lagna* will be examined with the help of Sagittarius and Aquarius.
11. Aquarius *lagna* will be examined with the help of Capricorn and Pisces.
12. Pisces *lagna* will be examined with the help of Aquarius and Aries.

Differences in the Charts of Men and Women

The predictions in this book are applicable to the horoscopes of women in the same sense as they are applicable to the horoscopes of men with the only differences that (1) the predictions about wife in the male horoscope applies to the predictions about husband in the female horoscopes, and (2) the predictions about the occupations in the female's horoscope will apply to the husband.

The events of the periods of life should be predicted through '*Vimsottari*' and '*Antara dashas*'.

When in the horoscope of men, the *Vimsottari Dosha* is benefic, it is the period of outright progress of destiny. When between husband and wife, the *dosha* of one is good and that of the other is bad, it is the period of ordinary rise. Similarly, when both have malefic *dashas* the period is harmful. When there is the *Antara* of the best planet in the *dosha*, it is the most fortunate period.

How to Remove Doubts

If in the horoscope of a native, a planet causes benefit about a particular matter and the other planets cause maleficence about the same matter, it should be understood that both the predictions would take place in the life though may be in any shape. The

timings and shape of the event can change but the effects cannot be eliminated. The other point to be borne in mind is that it is the combined effect of all the nine planets which forms the life, nature and their features of human beings. Everybody should consider the decisions regarding his destiny through the combined effect of all these nine planets.

The following are the twelve signs:

Indications and Significations of Each House

1 st	Body, mind, soul, business	Sun
2 nd	Worries, family, finances, right eye	Jupiter
3 rd	Adventure, enterprise, short foreign travel, right ear and hand	Mars
4 th	House, estate, vehicle, happiness from friends, mother, partnership, peace of mind, transfer	Moon, Mercury
5 th	Children, education	Jupiter

11 th	Income, circulation of money, fulfilment of desires, left ear and hand	Jupiter
12 th	Expenditure, loss, interest, bankruptcy, short travels, left eye and nose	Saturn

Example

Just to broach on the subject, Mars is the significator of 3rd house, which stands for adventure, valour and foreign travel. It is the same thing which Mars also signifies. Hence, Mars is called the significator of 3rd house.

If proper attention is not paid on the signification planets in the matter of predictions, there are chances of the prediction going wrong. For example, the Moon is the significator of the 4th house and hence if it relates to 4th house, then irrespective of the possibility of the 4th lord being weak, the native gains the happiness of house and vehicle. Similarly Sun is considered as benefic for the 1st, 9th and 10th houses because he is the significator of soul, mind, body, fortune, wealth, position, honour, power, fame, promotion and fatherly happiness.

Moon has a very important role to play and has a changeable character. Moon when in conjunction with Venus will become deceptive in nature.

Mercury is a planet which causes depression when it is weak. Similarly Mars, when debilitated and aspected by Saturn becomes extremely dangerous. Any important principle to be understood is that planets like the Mars and Jupiter when debilitated or weak will give negative results and if associated with negative forces of Saturn and Venus might be helpful. They rather help Saturn and Venus.

Degrees of the Planets

The degrees of the different planets are extremely important, assuming that there are three planets, Mars, Venus and Rahu, which are conjoined in one house. We need to know the degrees and then decipher which planet is ahead in the sign. If Mars has the highest degrees followed by Venus and Rahu, the results would be highly different than Rahu having the highest number of degrees followed by Venus and Mars in the same house. Therefore, it is important to have the degrees of all the planets in each sign and then analyse the conjunction.

The planets in the zodiacal diagrams when move to the other houses in the moveable do 25% work of that house and 70% work of the house in which they are posted,

The planets occupying the particular house being 'Vakri' take care of the previous house and cause great progress of their occupied house though with some perplexity.

(3-4-5-6) The planet posted in good or bad houses in '*Navamsa*' give some effect or *Navamsa* predictions also in the predictions about house where they are posted in *Rashi Chakra*.

The planets having more than 28 or less than 2 at the time of birth are weak and therefore give weak effects. The planets having 10-20 are strong and therefore give strong effects. The planets fading due to Sun at the time of birth are weak planets and hence do not affect completely.

Business of Each Planet

Planet	Business
Sun	Paper merchant, Bookseller, Farmer, Saint, Devotee
Moon	Actor, Dancer, Poet, Painter, Traveller, Sculptor, Jeweller, Sailor, Photographer, Vendor of perfumes or glass articles
Mars	Doctor, Lawyer, Engineer, Captain, Commander, Soldier, Historian, Magician, Director, Scientist, Minister, Philosopher, Foreign traveller
Mercury	Chartered Accountant, Banker, Economist, Translator, Comedian, Orator, Supervisor of rest houses or hostel - if weak, would serve at such places
Jupiter	Teacher, Professor, Social Worker, Doctor, Clerk, Publisher, Exporter, Commission Agent - if weak, would be a servant in these areas
Venus	Teacher, Musician, Artist, Sculptor, Seller of artistic materials
Saturn	Dealer of hardware, machines, house products, undertakes huge works, construction work at places

Basic Terminology
and
Case Studies

Some Basics (Terminology) of the Planets

Lhe study of the astrology is centred on the nine planets viz. Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu and Ketu. Out of these, the first seven planets have their own houses while the last two do not have houses of their own.

The zodiac has twelve houses, which are named as:

1. Aries or *Mesha*
2. Taurus or *Vrishubha*
3. Gemini or *Mithuna*
4. Cancer or *Karka*
5. Leo or *Sinha*
6. Virgo or *Kanya*
7. Libra or *Tula*
8. Scorpio or *Vrishchika*
9. Sagittarius or *Dhanu*
10. Capricorn or *Makara*
11. Aquarius or *Kumbha*
12. Pisces or *Meen*

Out of these, Sun and Moon have only one house, while the other planets have two houses each. They are as given on the next page:

12 Pisces or <i>Meen</i> Jupiter	1 Aries or <i>Mesha</i> Mars	2 Taurus or <i>Vrishuhha</i> Venus	3 Gemini or <i>Mithuna</i> Mercury
11 Aquarius or <i>Kumbha</i> Saturn			4 Cancer or <i>Karka</i> Moon
10 Capricorn or <i>Makara</i> Saturn			5 Leo or <i>Sinha</i> Sun
9 Sagittarius or <i>Dhanu</i> Jupiter	8 Scorpion or <i>Vrishchika</i> Mars	7 Libra or <i>Tula</i> Venus	6 Virgo or <i>Kanya</i> Mercury

Some are of the opinion that Rahu (Dragon's Head) owns Leo, and Ketu (Dragon's Tail) owns Scorpio. These two planets somehow do not have their own houses but occupy the houses of other planets and behave like them.

A Few Case Studies

The primary view kept in this book is that the whole human life is hidden in the nine planets of a horoscope, it will not be possible to discuss the events of the whole life of the native till the effects of every planet is not clearly known without which the complicated science of astrology will not be easy. It is with this understanding in the book every ascendant has been treated with the placement of the planets in each of 12 houses in a zodiacal diagram.

Lord of *lagna* Mars is in the 3rd house aspected by Jupiter, the lord of the 9th and 12th and a natural **benefic**. This is favourable. Venus occupies *lagna* and is free from good or evil aspects. In the *Navamsa* *lagna* is Scorpio and is free from good or evil aspects. In the *Navamsa*

lagna, the native will share the characteristics of Aries blended with those of Mars and Venus. The subject will be of middle stature, fair complexion, broad temples and narrow chin. He will be a man of independent thinking, self-made, and will rise to a very high position in life after much struggle. The situation of Sun *Thanukaraka* with Rahu is not a desirable combination. The subject loves beauty and elegance, as Venus is in the *lagna*. He nurtures human principles and a sacred idea of friendship. The Moon being hemmed between Mars and Saturn makes the mind worried almost always. As both *lagna* and Moon sign are moveable signs, the subject will have a wavering mentality.

Balance of Rahu Dosha at Birth: Years 3-8-8

Lagna is not occupied by any planet but aspected by Jupiter, the Moon and Mars. *Lagna* is *Vargottama* and hence strong. Lord of *lagna* Mars aspects *lagna* in *Rasi* and is in the *Navamsa*. In physical characteristics, the subject is Martian. Because the *lagna* is with Rahu in the *Navamsa*, there is blending of the influence of Rahu and Mars. As in the previous phase, the subject rises from a humble existence. He is not fair as the subject of Chart 1. The Sun is in his own house with Jupiter. His stature is middle and his sight is sharp. The dispositions of *lagna*, the Sun and the Moon denote a stable mind with the power to concentrate, a mind capable of resistance

and quite frank. In Chart 1, lord of *lagna* is aspected by Jupiter while here Mercury is exalted with the ascendent lord. The native is rather unscrupulous.

Balance of Saturn Dosha at Birth: Years 7-0-22

Lagna no doubt is occupied by Ketu, but Ketu is actually in the 12th *bhava*. Thus *lagna* is free from malefic associations. Jupiter aspects *lagna* and hence it gets fortified. In *Navamsa* Jupiter is the lord of *lagna*, Venus is in a friendly sign with exalted Mars. Hence the family is powerful. The Sun is situated in an inimical sign but since it happens to be a *Kendra*, the native becomes strong. In appearance, character and mental disposition, the subject reflects the characteristics of Mars and Venus. The subject is short tending towards carpal (Jupiter aspecting) body, squarely built, fair complexion, broad forehead and a handsome appearance. He is self-reliant. He has a lot of endurance, latent power and energy. He is not happy as far as children are concerned. Saturn is in the 5th. The Moon is aspected by Saturn. Therefore, the native is always worried. The native is a worshipper of Lord Vishnu (Lord of the *lagna* in the 9th).

Lagna is *Mithuna* or Gemini. It is aspected by neither good nor bad planets. Lord of *lagna* Mercury is in the 3rd with Ketu and Venus aspected by Mars. The Sun (*Thanukaraka*) is with exalted Jupiter. This is the horoscope of a middle-class man. He is also aspected in the *Navamsa* by Mars. In his physical features, the native shares the characteristics of Mars, Mercury and of course Ketu. The subject is unassuming, simple in habits, forgiving in temperament and self-reliant. In this case, the fortunes are subject to much change. There should be no contact between the lord of 1st and 6th either by aspect or association. Here lord of *lagna* is aspected by Mars, lord of the 6th and 11th. The native is once implicated in a defamation case but is subsequently acquitted.

Most of the planets are concentrated in the 1st and 10th house indicating the powerful nature of the horoscope. *Lagna* is occupied by Mars and Ketu, and aspected by Rahu, which is not a very good combination for health. Lord of *lagna* Mercury is in the 10th in **debilitation**, but there is *Neechabhanga* (cancellation of debility). Lord of the 5th is exalted in the 10th. Jupiter is in his own house in the 10th with the Sun. There are five planets in the 10th, which is a very good combination. The native is a great journalist or a politician, moderate in view, firm in action, and obliging in nature. In physical features, Mars is **prominent - thin** face, sanguine complexion, active, clever, inherent conversational power. The **Moon** is free from any evil association and aspects. There are no fewer than six planets in the ascendant and midheaven. This indicates an active and rapidly moving mind fitted to play a mighty part. On account of malefic aspect on *lagna*, the native suffers hostile comments, criticism and opposition.

Balance of Mercury's Dosha at Birth: Years 6-8-27

The *lagna* is occupied by the Sun and Mercury, lords of the 2nd and 3rd. This is not very propitious. Lord of *lagna*, viz. the Moon is in the 5th with Ketu, hence bad. The Sun is with the lord of the 3rd. Lord of *lagna* is aspected by Jupiter (in the *Navamsa*) and is hammed between Saturn and Ketu, thus subject to what is called *Papakartariyoga*. All the three factors pertaining to the first house are unfavourably disposed; the subject is of stout build, nervous, extremely sensitive and dark in complexion. The conjunction of Saturn and Mars, the Moon and Ketu spoil the several good indications of the horoscope. The native is unimaginative, miserly, mean, undignified and overcautious. The Sun and Mercury are malefic and their situation in *lagna* is not desirable.

Balance of Mars Dosha at Birth: Years 6-1-12

Lagna is Cancer. Mars *yogakaraka* for this *lagna*, is deputation in the ascendent but there is *Neechabhanga* for Mars, as Jupiter - the planets which gets exalted in Cancer - is in a quadrangular house from the Moon. Moreover *lagna* is aspected by its own lord. This *lagna* is powerful. Coming to the lord of *lagna*, he is aspected by Mars and Saturn. The first aspect is good, while the second is evil. In the *Navamsa* again, the Moon is with Mars - a good combination. The lord of *lagna* may be declared as middling in strength. The Sun (*Thanukaraka*) is in Libra - in debilitation with Mercury and Jupiter - Mercury being evil and Jupiter good. In the *Navamsa* again, the Sun is with two malefics - Saturn and Mercury. There is no *Neechabhanga* in the *Rasi* for Sun. Thus so far as the first house is concerned, the *lagna* is fairly strong - the lord of *lagna* middling and *Thanukaraka*, somewhat blemished. Martian and Lunar characteristics will be well marked. The presence of Mars in *lagna* produces smallpox marks on the body. Mars gives a fair ruddiness to the person, healthy constitution, a sturdy figure inclined towards corpulence, and a temperament principally of heat and dryness. The Moon aspecting indicates better proportion and greater delicacy of figure. Occult tendencies are well marked. Fleishy neck, fond of wealth and heavy gait are also the common characteristics. The mind is not at ease, as Saturn and Mars aspect the Moon.

Balance of the Moon Dosha at Birth: Years 3-3-8

Lagna is occupied by Ketu and aspected by Rahu. *Lagna* is therefore weak. Lord of *lagna* viz., the Sun is in Taurus an inimical sign with Mercury lord of the 2nd and 11th and the Moon. In the *Navamsa*, the Sun is in Capricorn, an inimical sign. Thus all the three factors concerned with the 1st house are weak. The subject is lean and has a sickly constitution. He psychologically feels that there is something wrong with his health. His height is average, face oval in shape and countenance thoughtful. He possesses considerable philosophical knowledge, is a voracious reader, lacks natural policy with ambitions, and remains unfulfilled to a great extent. Jupiter is exalted. The Moon's position and aspects are more fortunate than those of the Sun.

Mars aspect on *lagna* gives a fair mddiness to the person, healthy constitution, sturdy figure, while Jupiter's aspect is responsible for fair complexion, big eyes and dignified stature. The native has a chequered career, is subject to varied fortunes once in the lap of wealth but in ordinary circumstances.

In all the cases stated above important factor should be borne in mind viz., the strength or otherwise of *lagna*, the Sun and of course Moon also. A steady flow of fortune is generally assured if at least two of the three factors mentioned above are well-disposed.

Saturn also aspects *lagna*. *Lagna* is **subject** to *papakartariyoga* as also its lord. In the *Navamsa*, again Mercury is subject to malefic effects. The Sun is in his own sign but in *Navamsa*, his situation is unfavourable as **he** is **with** Mars aspected by debilitated Mercury and also Saturn. The 1st house is not well-fortified. Virgo is a watery sign. The native is stout, has shoulders and arms rather **drooping**, **dark** hair, and a good forehead. He is truthful and kind, fond of learning, and lacks self-confidence. He is shrewd, prudent, and somewhat indolent and has a speculative bent of mind. *Thanukaraka* is **with** Mars and aspected by Saturn. The native has smallpox marks all over the body. The Moon is aspected by Saturn. The native is stout and dark in complexion, prudent, economical, diplomatic and shrewd. Since the foundation of the horoscope is strong, the general disposition is sound. He is a businessman or a money-lender and is financially very sound. The appearance is not attractive, probably due to Saturn aspecting *Lagnadhipathi*.

In the *Navamsa*, Venus is hemmed in between the Sun and Ketu, and Mars and Jupiter aspect Venus. The subject has a fair complexion, middle-sized stature, phlegmatic constitution, handsomeness and a youthful appearance. Though not much educated, he has keen foresight, is straightforward, and loves truth and honesty. His nature is upright and frank, at times very hopeful and at times melancholic. In the *Navamsa*, Mars is in Cancer in debility, but the debilitation effect is cancelled. The Sun is in Pisces a friendly sign, but is in association with Ketu in *Rasi* and with Rahu in *Navamsa*. The ascendant lord and Sun are both moderate in strength. The subject has the characteristics of Mars. He has a handsome appearance, broad eyes and thin figure. His brows are prominent and his disposition is generous. He is a good conversationalist with a fertile imagination and resourceful nature. The Moon is also free from afflictions. He is inclined towards corpulence because Jupiter is in *lagna*. The Ascending is occupied by Mercury, Jupiter, Rahu and aspected by the Moon and Ketu. Mercury and Jupiter are nearly 20 degrees behind Rahu, so that they are free from the effect of Rahu's conjunction. *Lagna* is in full association with benefics and thus gets considerable strength. The lord is in the 2nd with the Sun, Saturn (malefics) and Venus is a benefic. Lord of *lagna* also causes a *parivarthanayoga* with Jupiter. In the *Navamsa*, *Lagnadhipathi* is fairly well disposed. The Sun (*Thanukaraka*) is moderate in strength because, though in a friendly sign, is in conjunction with Mars and Saturn and of course with Venus too. He is hemmed in between Rahu and Saturn in the *Navamsa*. The health of the native is not very good. The subject has an attractive personality, broad face, fair complexion and is inclined towards corpulence. He is somewhat assuming and ambitious. Lord of *lagna* Jupiter is in the 3rd, again hemmed in between Ketu and Saturn thus losing strength. Venus no doubt aspects Jupiter, but even this aspect is not good because Venus is the Lord of 6th and **11th** Mars also aspects Jupiter from his own sign. This is passable. In the *Navamsa* again, **Jupiter** is **with Rahu** aspected by **three malefics** Saturn, Ketu and the Sun. Jupiter is certainly weak. The Sun is debilitated in the **11th** but the relieving features are cancellation of debility and Jupiter aspecting the Sun. Added to these all the planets are disposed in the 2nd and 12th from each other. These dispositions indicate strides in career and lack of happiness. In the disposition of physical features, the characteristics of Jupiter, Venus and Mars are blended. The native is not inclined towards corpulence. The face is long, thin figure but good-looking with well proportioned features. Venus adds softness and great delicacy, while Mars gives fair ruddiness to the personality. The body is full of hair (Saturn aspecting Jupiter in *Navamsa*), the native is sympathetic and sometimes restless, hates external show, is God-fearing, honest and free from hypocrisy and of temperate habits. The mind is clear and quick. Manners are gentle. The native is simple in his mode of living. He is a lover of peace. He is very affectionate and seldom bears malice. He lacks happiness.

Lord of *lagna* is *neecha* and is with Rahu, of course in the same sign. Lord of *lagna* is aspected by debilitated Sun (lord of 8), Jupiter (lord of 3rd and 12th), Ketu, Mercury (lord of 6th and 9th), Mars (lord of 4th and 11th) and Venus. In the *Navamsa*, Saturn is with Ketu aspected by Rahu and Mars is with Jupiter and Venus. All the three factors pertaining to the 1st house are rather unfortunately disposed. The native is **tall**, lean and has a reddish brown colour. The body is thin and bony. He possesses sympathy and generosity. He has good manners and puts on superior airs. He has great aspirations and is capable of much endeavour, is industrious but lacks self-confidence, is nervous and weak-minded. The lips are flashy, cheeks are broad and have prominent temples. He makes friends with others very soon. He is somewhat short-tempered but becomes overcomes it. The evil is firm and inflexible. Moon	Sun Mercury Venus	Mars	Ketu

If the Sun is in the 10th house, the native will make distinctive achievements in the educational sphere by his 18th year, and will become famous and quite capable of learning well. He will be very well-behaved and valorous, and will earn good reputation. If the Sun is exalted (in Aries) or in his own sign Leo, the native will become powerful and famous on account of his good qualities and achievements. If the Sun is in the sign of a malefic, or aspected or associated with a malefic, there will be obstructions in his professional career. He will indulge in evil deeds, will be of undesirable conduct, and immoral and sinful. When Sun is exalted in the 10th, the ascendant will be Cancer and Sun as exalted, lord of the 2nd in 10th. This will give rise to an excellent *Dhanayoga* which will make the native very wealthy and prosperous, and a man of high status, as obvious in the given horoscope which belongs to Pundit Motilal Nehru.

He **will** recover if it is aspected by a **benefic**. The 6th house signifies diseases also. While eradicating enemies, the native will suffer. In the given horoscope Mars and Rahu are in the 6th, the native has suffered from ill health throughout his life and has been suffering from many diseases. He is also troubled by enemies.

Mercury in the 1st House

			Venus Rahu

If associated with or aspected by a malefic or in his sign of debilitation (Pisces) the native will go to hell after death. He will be deprived of bed comforts (sexual pleasures) and will appropriate evil Gods. If Mercury is in his own sign or in his sign of exaltation in the first house (which is also *lagna kendra*) ***Bhadrayoga (Panchamahapurushayoga)*** is formed. Those born under *Bhadrayoga* will be strong, will have a lone-like face, well developed chest, well-proportioned limbs, he will be taciturn, will help relatives and will live up to good old age. The given horoscope given of late Dr S. Radhakrishnan, the former President of India, is a good illustration of *Bhadrayoga*.

Mercury in the 10th in his sign or in his sign of exaltation being in *kendra* to the ascendant will also give rise to *Bhadrayoga*. If Mercury as a benefic occupies the 10th house from the ascendant, *Amlayoga* is formed, which results in the native achieving lasting fame and reputation. His character will be spotless and he will lead a prosperous life.

For Gemini, Virgo, Sagittarius and Pisces ascendants, Mercury in the 10th as lord of the ascendant and 4th, as lord of the ascendant and the 10th, as lord of 7th and the 10th, as lord of 4th and 7th respectively will give rise to powerful *Dhanayogas*. The above given chart is that is Shri Deen **Dayal** Upadhyaya, a very popular Janasangh leader.

Jupiter in the 1st House

Mars Rahu	Mercury Venus	Sun Saturn	
Ascndt Jupiter		Moon	Ketu

If Jupiter is in his own sign (Sagittarius or Pisces) in the first house (ascendant) the native will be a good speaker and well versed in *Shastras*. He will have full knowledge of the Vedas, a good number of children and will be happy, long-lived and learned. If Jupiter is in a sign of exaltation (Cancer), all the above results will be fully released and in his **16th** year, the native will enjoy the effects of the *Maharajayoga* so caused by Jupiter.

If Jupiter is in the house of enemy or the house of a malefic or associated with malefics or in his sign of debilitation (Capricorn), the native will indulge in sinful deeds; he will have an unstable mind and a medium span of life. He will be childless, ungrateful, full of false vanity, and will forsake near relations and well wishers. He would like to travel, would be inimical towards others and also miserable. If Jupiter is posted in a *kendra* position to Moon, it will ward off all evils caused by all the planets. This means that if powerful Jupiter is posted in a *kendra* (1, 4, 7, 10), he alone wards off all the *aristas*. The disposition of Jupiter in Sagittarius, Pisces,

and Cancer in the ascendant (*Lagna Kendra*) also gives rise to *Hamsayoga* (*Pachmahapurushayoga*). *Hamsayoga* gives handsome body, good relations with others, righteousness in disposition, and purity in mind. The above horoscope is that of President Sanjiva Reddy, a good example of *Hamsayoga*.

Jupiter in the 10th House

Jupiter		Moon Rahu	Ascdt
Sun Mercury	Mars Venus Saturn Ketu		

The native will be religious-minded and will perform righteous deeds, study *Gita*, will be very able, will have widespread reputation and will be respected by masses. If the lord of the 10th is strong, the native will perform high class religious duties. If the lord of the 10th is associated with a malefic or is in the house of a malefic, there will be obstacles in his professional career and the native will indulge in evil deeds and will suffer financially. If Jupiter is in the 10th house in his sign Sagittarius, Pisces will be the ascendant, Jupiter will be in the 10th as lord of the ascendant and the 10th house. If Jupiter is in Pisces, Gemini will be the ascendant and the Jupiter will be in the 10th as lord of the 7th and 10th houses. For Virgo ascendant, Jupiter will be in the 10th as lord of 4th and the 7th houses. For Sagittarius ascendant Jupiter will be in the 10th as lord of the ascendant and the 4th house. These positions will give rise to powerful *Dhanayogas*. The disposition of Jupiter in the 10th house in his signs of Sagittarius and Pisces gives rise to powerful *Rajyogas*.

Venus in the 10th house

Venus	Moon	Mars	Ascndt
			Ketu
Sun Mercury Rahu			Jupiter
	Saturn		

If Venus is in 10th house, the native will be fully of glory. If Venus is associated with (or aspected by) a malefic, the native will have difficulties and obstacles in his undertakings. If Venus is associated with Mercury, Jupiter and Moon the effects will be:

1. The native will enjoy the comfort of many conveyances.
2. The native will perform religious ceremonies.
3. The native will enjoy worldwide reputation.
4. The native will enjoy many *Rajyogas* (that is, he will be wealthy, honoured and famous).
5. The native will be very fortunate and talkative.

For Virgo, Capricorn and Aquarius ascendants, Venus will be in the 10th as lord of the 2nd and 9th, the 5th and the 10th, and the 4th and 9th respectively. These dispositions will give rise to very powerful *Dhanayogas*. Venus in the 10th is in *kendra* to the ascendant. The disposition of Venus there in his own sign or in his sign of exaltation will give rise to *Malyayoga*. The above given horoscope of late President Zakir Hussain is an illustration of this *yoga*. Here Venus is in the 10th in his sign of exaltation. Venus being a benefic in the 10th to the ascendant also gives rise to *Amlayoga* which here under gives rise to lasting fame and reputation. The character of the native is spotless and he leads a prosperous life.

Saturn in the 1st house

Mercury	Sun	Jupiter	Ketu
Venus			
Mars			
Rahu		Ascndt Saturn	Moon

If Saturn is in the 1st house (ascendant), the native will suffer from rheumatism and bilious diseases. If Saturn is in his sign of exaltation (Libra), the native will have lordship over a village or town, and will have financial and agricultural prosperity. If Saturn is in his own sign Capricorn or Aquarius, the father of the native will be rich. If Saturn is in the ascendant in the sign of the lord of the 4th or **10th**, the native will be very fortunate and will enjoy the effects of *Maharajayoga* (name, fame and wealth). If Saturn in the ascendant is aspected by Moon, the native will earn his livelihood by beginning. This will not happen if Saturn is aspected by a benefic (Jupiter or Venus) also. The disposition of Saturn in the ascendant *{lagna kendra}* in his own sign of exaltation will give rise to *Sasayoga* which gives rise to the native having a command on good servants. His character will be questionable. He will be a head of village or a town or even a king. He will covet others' riches and will be wicked in disposition.

Moon in the 1st house

Lagna Moon	Sun Mercury Venus		Mars Ketu
			Jupiter
			Satum
Rahu			

If the Moon is in the 1st house (ascendant), the native will be very handsome looking but unsteady mentally. He will suffer from bodily trouble and will be happy at watery places. He will undertake many journeys in his 15th year. If the Moon is in Aries, Taurus or Cancer, the native will be well-versed in *shastras* (Hindu religious scriptures), wealthy, happy and soft spoken. He will have soft skin and a strong built. If Moon is aspected by benefics, the native will be powerful, wise, intelligent, healthy, a clever conversationalist and wealthy. If the lord of the ascendant is weak, the native will suffer from ill-health. If he is aspected by a benefic, the health will be good. Very good results will occur when Jupiter is in the 7th to Moon (this disposition will give rise to *Gajakesariyoga* - a very benefic *yoga* conferring wealth, name and fame upon the native). For a planet to give good results, it is very necessary for the lord of the sign in which it is posted to be strong and well-placed. In the love chart, Jupiter is in his house of exaltation and aspecting Moon with his 9th aspected a very good and strong position. Hence Moon is very strong in the ascendant and hence the native will be wealthy and healthy.

Conclusion

At the behest of Pustak Mahal, New Delhi, for writing a book on *Bhrigu Samhita*, I have authored this book providing all the relevant and required information. I have dealt with this subject under 4 headings starting from preface to general principles on various aspects that are essential regarding the positions of various planets with reference to each of the 12 signs from Aries to Pisces with special reference to the birth chart.

This being a forgotten subject, a few relevant horoscopes (case studies) have been given. This is one of the astrological methods used by Bhrigu for finding out the events based on the nine planets and their position in each house with reference to each sign as an ascendant, which highlights the events of a native in his lifetime. This area still requires further exploration and a lot of research. I sincerely hope that the interested astrologers would think about undertaking studies on this subject.

Hence it is expected that this book will be used as an initial tool by the astrologers who will pursue this method also for making various kinds of predictions. I pray to God to bestow long life and prosperity upon all the readers of this book.
